Subject: San Jacinto Follow Up
Date: Friday, May 19, 2017 1:01:32 PM

Gary – To follow up on our call yesterday morning, if possible, we would like to schedule a call with you and appropriate representatives from USACE that were involved in their modeling of the armored cap at San Jacinto. As I mentioned, we have made some modeling runs using input files that the USACE used, but we are having trouble replicating their results. The call would be an informal discussion about what we did, our results, and trying to understand if, and what the differences between the different models may be.

Please let us know if you can help arrange this call. Right now, we cannot participate in anything Tuesday morning or all day Wednesday, but should be available otherwise.

Thanks,
David
